The Committee however regret the delay.

during the course of the only financial year 1937-38 he had opportunities to work.

As a result of drastic economy of expenditure, the Committee were able to purchase four large wall showcases fitted with glass shelves, two small central showcases, one picture almirah and also glass shelves for six of our old wall showcases and other important articles for the Museum at a cost of about Rs. 2,500. The above expenditure was met out of the savings effected in the contingent fund of the Museum.

The interest taken in the Museum by His Excellency has caused general satisfaction. His Excellency was pleased to address a letter to the President of the Museum Committee expressing the great pleasure his visit gave him and sanctioning a special grant of Rs. 1,000 from his discretionary grant to be expended on the more urgent needs of the Museum. An extract from the letter is published below with His Excellency's permission :—

"No. 345-G.B.

Government House,
Patna.

11th March, 1938.

My dear Manuk,

* * * * *

We live in a materialistic age in which most people think more of the present and the future than of the past and devote more attention to economic, financial and constitutional problems than to the study of art. A visit to the Patna Museum shows how pre-eminent Bihar was in the distant past in art and architecture and how skilled were the craftsman artists. To see these works of art encourages the hope that it may be possible to revive some of the

old arts and crafts and that Bihar may again produce articles not merely of commercial value but of artistic merit.

One point I would like to raise. Apart from living in a materialistic age, we live in an age of publicity; we must advertise ourselves; if we do not do so, we tend to drift into a backwater. Does the general public in Bihar know enough about the Patna Museum? Do people in other provinces or other countries know of the existence of the Patna Museum or of the treasures which it contains? No doubt much has been written in scientific journals, such as the journal issued by that very useful ally of the Patna Museum, the Bihar Research Society. But such journals only have a limited circle of readers. I would suggest for your consideration the possibility of publishing articles in the leading newspapers of India, preferably articles illustrated by photographs which, written in simple language, would bring home to the man in the street the importance of the Patna Museum. I feel sure we should have no difficulty in getting such articles published and I will do all I can to help you and the Committee in this matter.

The Provincial Government will, I feel sure, recognise fully the desirability of providing adequate funds for the maintenance of the Museum. It is clear to me from my recent visit that expansion is becoming an urgent problem and I will see that this question is fully considered.

For the present I am pleased to sanction a special grant of Rs. 1,000 from my discretionary grant which will enable you to carry out at least partially your scheme for providing more shelves in some of the rooms and thereby ensuring that the exhibits are better displayed.

In conclusion let me thank you Dr. Banerji Shastri, Mr. Khuda Baksh and Mr. Ahsan Shere for my visit.

Yours sincerely,

Sd. M. G. HALLETT."

The Committee are grateful to His Excellency for his visit and also for the grant of Rs. 1,000.

III. Burglary at the Museum.—We have to record with extreme regret the raid on the Strong Room of the Museum which took place on the night of the 27th-28th April, 1939. In spite of the fact that the Police guard were supposed to be on duty throughout the night, a large number of inside doors and locks of the galleries and also of the Strong Room were prised open. 502 gold coins, and some other gold articles which were kept in the Strong Room for safety were stolen. The silver and copper coins were not disturbed, but a small fancy pistol was also removed.

Two large stout Chubbs' locks attached to the collapsible gate of the Strong Room were broken open, the heavy bolt, hasp and staple of the inner door of the same room with another lock were forcibly prised open. Then another stout bolt and staple in the lobby upstairs attached to the door leading to the north-west verandah were also forced open. The staple and the hasp of the northern gallery in the Hall down-stairs were also smashed up and a pane of glass in the ventilator of the sculpture Gallery down-stairs was found broken with pieces lying on the floor. It seems incredible that all this was possible without attracting the attention of the two Police constables supposed to be on guard, marching up and down the Museum terraces.

The Police, however, were convinced that only some of the staff were involved in the conspiracy and consequently arrested the Photographer, Babu Promode Kumar Roy Chowdry; the jamadar, Basudeo Pathak (who kept all

the keys of the galleries except the Strong Room keys); the literate peon and Guide, Jadunandan Singh; the Laboratory Peon, Sitaram; the Photographer's Peon, Sheonandan; the three Sweepers, Basant, Ramcharan and Nathuni and one of the Malis, Dhanukdhari.

The Police submitted a Charge sheet under sections 457, 380 and 120-B., I. P. C., against several persons including only two of the Museum employees out of those arrested, namely Sheonandan, photographer's peon (who is alleged to have acted as a spy to the gang) and Sitaram, Laboratory peon. The rest of the arrested Museum employees were released by the Police for want of sufficient evidence against them, but the Police were satisfied that their conduct was most suspicious both before the occurrence and soon after it. Police investigations were carried on both in Patna and Calcutta, as the result of which a clue was found about the existence of an Inter-Provincial gang, alleged to have been responsible for the burglary at the Museum. On the strength of the confession of one of the persons arrested in connection with the burglary, the discovery of certain letters and telegrams said to have been written by some of the accused persons and other circumstantial evidence, the trying Magistrate has sent the case for trial before the Court of Sessions.

Not one of the stolen articles was recovered in spite of the fact that Government announced, on the recommendation of the Museum Committee a reward of Rs. 2,000 to any person or persons except the culprits themselves giving information which might lead to the recovery of the gold coins, etc., or a substantial portion of them, and despite the vigorous enquiry pursued by the Crime Assistant Mr. M. K. Sinha, I. P. and other officers of the Police Department.

On the insistence of the President, an armed guard has now been provided for night duty, and if this had been done years ago when it was first suggested after the present Museum was built, this deplorable burglary may never have been possible.

It may be noted that our burglary was preceded by a burglary at the Allahabad Museum, and since the burglary at the Patna Museum, we have had official intimation of similar burglaries at the Museum of Baroda and Gwalior, also involving the loss of gold coins and gold ornaments.

We can only hope that the Criminal Investigation Department authorities are alive to the existence of a professional gang who should be vigorously hunted down.

IV. Staff.—(a) Partly as a result of the burglary and partly on other grounds, the following changes have taken place :—

1. The Photographer, Babu Promode Kumar Roy Chowdry, has been dismissed by the Managing Committee.
2. Jamadar, Basudeo Pathak. His case has been reported to Government for transfer to a post of less responsibility in some other department of Government.
3. The Literate Peon and Guide, Jadunandan Singh, tendered his resignation which was accepted. This vacancy has been filled on a temporary basis by appointing the Museum Literate Farash Muhammad Rashid.
4. Three sweepers and one mali were dismissed.

(b) On account of the medical leave granted to the Head Clerk, Babu Rama Bhushan Ghosh, Babu Shyam Sunder Sahay, Marksman Clerk, has been officiating for the above Head Clerk from the 1st July, 1939, and Maulvi S. H. Manzar has been appointed to officiate for the Marksman Clerk, with effect from the 10th May, 1939.

V. Working of the Museum.—The report for the year under review will show substantial improvements and additions made in the different sections of the Museum.

The Archæological Hall has been completely re-arranged, new stone pedestals made for important sculptures and new labels prominently printed, indicating the find-spots and the periods of the various groups, etc. A useful innovation is observed in a chronological chart of the periods represented by the sculptures and terra-cottas housed in the Museum. This is printed on a panel in bold white characters in three languages—English, Hindi and Urdu and now literate visitors can see at a glance the chronology of each period.

Nearly all the important terra-cotta figurines and animals, etc., from different sites such as Pataliputra, Bulandibagh, Kumrahar, Patna, Mathura and last but not least Buxar, have been provided with plaster pedestals which throw up the beauty of these unique exhibits. The chariot wheel of the Mauryan Period (320 B. C.) which was unearthed during the excavation at Pataliputra is now displayed in its own show case. All the terra-cottas in the Pataliputra and Buxar Rooms have been labelled and scientifically arranged according to their respective periods. They can now be seen and studied under better conditions.

The Bronze Room always attracts particular attention and it now includes exhibits from Nalanda, the 2nd instalment of which was obtained, after much trouble, on loan from the Government of India.

As the Museum exhibits are growing day by day, a few of the table show cases have been transformed into two decker show cases in order to accommodate more exhibits. The exhibition of the Stucco heads from Taxila and Nalanda, and stone heads from other sites in these show cases enable the visitor to study each piece from different angles and enhances the beauty of these exhibits. Each has been individually labelled and displayed on suitable stands.

The old wooden shelves in our old wall show cases are being steadily replaced by plate glass shelves out of savings from the meagre contingent grant. The result is more light on the exhibits.

As a result of economies rigorously exercised in various less urgent directions, the Committee were able to purchase, in spite of the one-fourth cut in the Contingent budget of the Museum by Government, three large wall show cases with plate glass shelves, plate glass shelves for old wall show cases and stone pedestals for stone sculptures at a cost of over Rs. 1,500. The above expenditure was met out of the savings, referred to above, effected in the Contingent funds and re-appropriated from different units of the Museum budget.

VI. Visit of His Excellency the Governor.—Sir Thomas Alexander Stewart, K.C.S.I., K.C.I.E., I.C.S., Governor of Bihar and Lady Stewart accompanied by an Aide-de-camp visited the Museum on the 7th March 1940. The distinguished visitors inspected every gallery including the Strong Room of the Coin Cabinet. When leaving, His Excellency and Lady Stewart expressed themselves as very interested in all they had seen and greatly admired the fine building which is in the Moghul-Rajput style of architecture.

VII. Visitors.—Among other distinguished visitors to the Museum were the Hon'ble Sir Muhammad Zafrulla Khan, Law Member to the Government of India; Mr. R. E. Russell, I.C.S., Adviser to His Excellency the Governor of Bihar; Mr. S. M. Dhar, I.C.S., Secretary, Education Department, Government of Bihar; Mrs. S. M. Dhar; Mr. S. R. Zaman, I.C.S., Collector of Patna; Mr. S. A. A. Rizavi, Assistant Secretary, Education Department, Government of Bihar; the Hon'ble Khan Bahadur M. Azizul Haque, Vice-Chancellor, University of Calcutta; the Hon'ble Mr. Justice C. M. Agarwala, Patna High Court; Mrs. Agarwala; Mr. H. B. Richardson, Professor of English, Government College, Lahore; Mr. John Turner, General Manager for the East Reuters; Mr. V. D. Ghate, Educational Inspector, Bombay; Mr. Narendra Singh, heir-apparent to the Panna State, Central India; Mr. R. G. Gyani, Curator, Archæological Section, Prince of

Wales Museum, Bombay; Mr. M. A. Shakoor, Curator, Peshawar Museum, Peshawar; Mr. S. Hydar Imam, M.L.A., (Central), Patna; Dr. Kalidas Nag, Professor, Calcutta University; Father M. D. Moran, S.J., Principal, St. Xaviers, Patna; The Rev. M. Dhammarakhita, the Patriarch of the Inter-National Buddhist Mission.

The visitors were greatly impressed with the rare specimens of terracottas (from Pataliputra, Patna, Buxar) and other important stone and bronze sculptures. The method of display of exhibits in general has greatly improved, a matter which apparently attracted the attention of our distinguished visitors.

It may be interesting to reproduce the remarks made about the Museum by some of these visitors :—

(a) The Hon'ble Sir Muhammad Zafrulla Khan, Law Member to the Government of India.—

"I was very glad to revisit the Museum after seven years and to notice all the improvements. The theft of gold coins is a sad loss which I hope the Museum will be able to make up by the generosity of other Museums."

(b) The Hon'ble Mr. Azizul Haque, Vice-Chancellor, University of Calcutta.—

"I spent an interesting morning. Mr. Absan Shere was kind enough to show me round. The Museum is neatly arranged and the bronze collections are the best I have ever seen anywhere in India. The coins have been all methodically arranged but it is a pity the recent theft has been responsible for the loss of an unique collection."

(c) Mr. John Turner, General Manager for East Reuters.—

"I am completely surprised to find this magnificent Museum in Patna. It ought to be better known."

(d) Mr. H. B. Richardson, Professor of English, Government College, Lahore —

"Most interesting, especially the sculptures of the Kushan and Mauryan periods".

(e) Dr. Kalidas Nag, Professor, Calcutta University.—

"The most inspiring monument to the glory of Bihar and of India".

On account of the burglary, the Museum was closed to visitors from the 28th April 1939 to 14th of May 1939. The turnstile in the Entrance Hall during the year under report recorded 129,724 visitors as against 152,666 visitors of the last year. The fall in the number of visitors is due to the closing of the Museum for seventeen days in the year under report for the reasons mentioned above.

VIII. Acquisitions.—During the year 1939-40 quite a number of interesting and important exhibits were added to the various sections of the Museum. The articles of the respective sections added to our collection in 1939-40 together with their numbers are stated below :—

1. Archæology	76
2. Coins	270
3. Art Section	19
4. Ethnological	3
5. Casts	31
6. Old Arms	1
7. Natural History	3

A detailed list of these exhibits is given in the appendices attached hereto.

IX. Important Acquisitions.—The following important exhibits have been acquired by gift or purchased during the year under report :—

- (a) By purchase, a stone image of the mediæval period of the Varaha (Boar) incarnation of four handed Vishnu (Arch. no. 8428).
- (b) During the course of the Curator's visit to Kumrahar, the site of excavation at Pataliputra which is a protected monument under the Ancient Monuments Preservation Act, 1904, he managed to acquire with the permission of the Collector of Patna a piece of buff sand-stone railing pillar of the Sunga period (Arch. no. 8429).
- (c) By purchase, two buff sand-stone standing male and female figures (Arch. nos. 8430 and 8484) of the 2nd Century A.D. They belong to the same type of sculpture as the "Mithuna couple under an Asoka tree hand" in which the man embraces the woman with his right and holds a drinking vessel in his left towards her and the woman stands with an averted face (Arch. no. 8178).
- (d) By purchase, a number of terra-cotta seals, bearing inscriptions of the 1st and 3rd—4th Centuries A. D. (Arch. nos. 8488—8496).
- (e) By purchase, two water-colour paintings on paper of the Moghul (Size 20½"×15") and Rajput (size 19"×15") schools (18th Century), depicting a young noble in the company of three women, terrace scene by night, marble buildings, garden in back ground ; and a Princess on terrace with two attendants, river in back ground and fireworks, respectively (Art. Reg. nos. 739 and 743).
- (f) The Museum had an unique opportunity to acquire by purchase a Cornucopia, from the collection of Sir John Herbert Vernon, London and four European miniatures through the President, Mr. P. C. Manuk. The acquisition of the Cornucopia and miniatures of the English, Dutch, etc. Schools has given visitors an opportunity of studying European objects of Art. A descriptive list of these articles is given in the appropriate appendix attached hereto. (Art. Reg. nos. 747—751).
- (g) By gift from Mr. C. T. Brett, C.I.E., India Police, the retired Inspector-General of Police, Bihar, three "Platters" used by the cannibals of the Soloman Islands for ceremonial feasts (Eth. nos. 596—598).
- (h) As no fine specimens of Mohenjodaro antiquities were sent to us on loan from the Government of India, the Museum purchased casts of Mohenjodaro seals and figures (Cast Reg. nos. 149—179).
- (i) Srimati Hemangini Devi, Patna, has kindly presented an iron sword curved at the end, held in one of the hands of the goddess Sakti. (Old Arm Reg. no. 93).
- (j) By purchase, an eight-legged kid which is an object of great interest to our humbler visitors (Nat. History Reg. no. 119).

X. Archæology—Nalanda.—The Government of India in the Archæological Department have at long last kindly given on loan the 2nd instalment of Nalanda Antiquities, which has been obtained after much trouble.

The Managing Committee regret that the Director General of Archæology refused to lend several pieces selected by Dr. Banerji Sastri and the Assistant Curator, who specially visited Nalanda to make a selection for the Museum. One can hardly agree with the Archæological Department that so many good specimens should not preferably be shown at the Provincial Museum at Patna rather than be stored at the very un-get-at-able and overcrowded little construction at Nalanda, where moreover there are no facilities for experts and savants to stay and study the exhibits. We can only hope that the Government of India will some day adopt the recommendation of that eminent

Archæologist, Sir Leonard Woolley, to close the Museum at Nalanda. If and when this happens, the Patna Museum should get the lion's share, as the site of excavations at Nalanda is fortunately situated in this Province.

XI. Numismatics.—A separate detailed report of the Secretary, Coin Cabinet and the Treasure Trove Officer, on the Coin Cabinet is appended to the Report.

XII. Archæological Catalogue.—The Catalogue is in the Government Press and it is hoped to publish it before long.

XIII. Finance.—A detailed statement of receipt and expenditure of the Museum for the year 1939-40 will be seen from Appendix B.

In this connection the Managing Committee greatly regret to record that in spite of the protest of the President and the Managing Committee, Government did not restore the one-fourth cut in the Contingent Budget of the Museum.

The Managing Committee have been faced with the difficulties of finding room for the steadily growing collection of exhibits, more specially in the Archæological and Art Sections.

Certain schemes involving the minimum of expenditure were prepared in consultation with the Hon'ble Dr. Syed Mahmud, the late Minister of Education in the Congress Government. The money, however, was not forthcoming to execute these proposals and now they have been abandoned owing to the war.

Under these circumstances the Museum authorities had to resort to various devices to find more show space within the existing galleries and by expenditure within the Contingent grant. This was possible only by saving under certain less urgent heads of the Budget Estimates and re-appropriating the sums so saved to these internal improvements, after obtaining the sanction of Government.

The Managing Committee is of opinion that Government should permit it to frame the Museum Budget Estimates on more elastic lines, in order to enable the Curator, with the approval of the President, to spend money on essential and urgent requirements instead of on stereo-type lines without approaching Government for sanction on each and every occasion of emergent re-appropriation. It is proposed to approach Government on the lines of the resolution passed by the Managing Committee on this subject.

XIV. Library.—A number of books have been added during the year under report. The total number of books and pamphlets is now 1,348 as against 1,303 of 1938-39.

XV. Garden.—It has been well kept.

XVI. Picture Postcards.—The fifteen different picture postcards from blocks of some of the important exhibits of the Museum, which were prepared some time ago, appear to be quite popular among the general public. The sale proceeds of these picture postcards are deposited in the Government Treasury instead of bringing any income to the Museum at whose cost the postcards were prepared.

XVII. Tour.—(1) Dr. A. P. Banerji Sastri, a member of the Managing Committee, was deputed to select the Nalanda Antiquities for the Patna Museum. He was therefore on tour on the 2nd December 1939.

(2) Mr. S. A. Shere, Curator and corresponding member of the Indian Historical Records Commission (appointed by the Government of India), was deputed to attend the meetings of the Indian Historical Records Commission, All-India History Congress and Numismatic Society of India. He was therefore on tour from the 12th December 1939 to 19th December 1939.

(3) Babu A. C. Ghosh, Chemical Assistant, was deputed to go to the Nalanda Museum to bring the Nalanda Antiquities for the Patna Museum. He was therefore on tour on the 2nd December 1939.

XVIII. Gifts.—The Committee records its grateful appreciation of the interest taken in the Museum by those donors, both private and official, a list of whom is given in the appendix.

The Committee however regrets to record its great disappointment at not receiving any response whatsoever to the appeals issued through the Public Press for donations in cash to supplement the small grant from the public funds. In this connection we have to thank Mr. Murli Manohar Prasad, Editor of the "*Searchlight*" for so kindly supporting our appeal by a strong leaderette on the subject.

XIX. Buildings.—The Committee is thankful to the Public Works Department for the assistance given in regard to the repairs of the building.

P. C. MANUK,

*President, Managing Committee,
Patna Museum.*

X. The Governments of Bombay and United Provinces managed to spare at the request of the Patna Museum through the Government of Bihar, five duplicate gold coins from the Prince of Wales Museum of Western India, Bombay and 12 gold coins from the Provincial Museum, Lucknow, for replacing the coins lost in the Patna Museum by theft. An exhaustive account of the burglary at the Museum in April, 1939 has already been given in the preceding pages by Mr. P. C. Manuk, Barrister-at-Law, President, Managing Committee, Patna Museum.

The Coin Committee desire to place on record their grateful appreciation of the interest taken in the Patna Museum by the Governments of Bombay and United Provinces, and the Museums of Bombay and Lucknow. The Committee fully realise that it was with the object of promoting the sense of co-operation between Museums that the Trustees of the Bombay Museum and the Managing Committee of the Lucknow Museum presented the coins to the Patna Museum.

XI. The Committee however regret to record their great disappointment at not receiving any response whatsoever to the request made by the President, Managing Committee, Mr. P. C. Manuk to the Director-General of Archaeology in India to spare duplicate gold coins from the Museums under his control in order to re-build the Coin Cabinet of the Patna Museum.

XII. His Excellency has made, it a point that the above amount of Rs. 500 be spent at the discretion of the President, Mr. P. C. Manuk. The whole sum was spent on purchase of Ancient Gold Coins of India in accordance with our initial endeavour to re-build the fine collection of coins which was so unfortunately burgled from the Strong Room.

The Coin Committee desire to place on record their gratitude for the special donation given by His Excellency Sir Maurice Garnier Hallett, K.C.S.I., C.I.E., I.C.S., now Governor of the United Provinces.

V. Patna Museum Gold Coins alleged to have been sold at Benares.—On receipt of an information from Mr. Krishna Deva, a scholar of the Archaeological Survey of India, who was stationed at Benares that he had a suspicion that he had "found some clues to an apprehension of the culprits" who had burgled the Gold Coins from the Patna Museum, the Curator Mr. S. A. Shere was ordered to proceed to Benares to enquire into the case. The enquiry resulted in the arrest of one Babu Ram Gobind Prasad of Bhabhua (district Shahabad), who had sold many Gold Coins of the type stolen from the Museum in April, 1939 at Benares and Lucknow for merely a nominal gold value and also enabled the Police to seize the Gold Coins which were alleged to have been sold at those places. The Curator had to visit in this connection also Lucknow and Bhabhua. The Managing Committee and I are grateful to Mr. Krishna Deva and also to the Archaeological Department, Government of India, where the scholar is employed, for the information he gave to the Curator in this regard.

VI. Lecture by the President, Mr. P. C. Manuk.—Under the auspices of the Managing Committee of the Patna Museum and under the patronage of His Excellency the Governor and Lady Stewart, its President Mr. P. C. Manuk, delivered a lantern slide lecture in aid of the War Plane Fund on the "Pictorial Art of India" at the Radhika Sinha Institute on the 21st November, 1940. The function was presided over by His Excellency Sir Thomas Alexander Stewart, K.C.S.I., K.C.I.E., I.C.S., before a large and distinguished gathering.

The lecture was illustrated by 56 slides from original paintings in the lecturer's own private collection on the various schools of paintings.

The proceeds of the above lecture amounting to over Rs. 500 was the direct result of the efforts made by the Curator and staff of the Patna Museum. The above amount was credited to the Patna District War Plane Fund.

VII. Working of the Museum.—The report for the year under review will show substantial improvements and additions made in the different sections of the Museum.

It may be interesting to note that the Curator and the staff of the Museum had to handle the numbering and display of 2,259 antiquities including acquisitions during the year under report.

The Terra-cotta and Cast Hall has been completely re-arranged. All the table show-cases in this Gallery have been converted into double decker show-cases in order to accommodate more exhibits. All the terra-cotta figurines and stucco heads have been provided with plaster of Paris stands and they are now on view under far better conditions.

The Fossil Tree which used to be exhibited in the Geological Gallery of the Museum has now been shifted to South Western verandah of the Museum in order to make room for more exhibits in the Geological Gallery. The Committee are thankful to the Public Works Department for removing the Fossil Tree and preparing a plinth for it at their own cost.

The landing on the first floor attracts particular attention and now includes potsherds from Harappa which have been kindly lent to the Museum by the Archaeological Department, Government of India. The Committee are thankful to the Director-General of Archaeology for this loan. We are hopeful that some other important antiquities besides potsherds unearthed at Harappa in the district of Montgomery may be lent to the Museum through the good offices of the Director-General of Archaeology in India. These potsherds from Harappa lent to us are objects of great interest on their dainty little plaster of Paris stands, and are greatly admired by our visitors. They have been exhibited in a separate show-case close to the antiquities from Mohenjo-Daro.

As a result of economies rigorously pursued in various less urgent directions the Committee were able to purchase 7 large wall show-cases and convert 17 table show-cases into double decker show-cases and also stone pedestals for stone sculptures at a cost of over Rs. 2,500. The above expenditure was met out of the savings referred to above, effected in the contingent funds and re-appropriated from different units of the Museum Budget. The Managing Committee are very grateful to Government for according their permission to re-appropriate the sum of Rs. 1,389 towards the purchase of the above show cases. It may be pointed out with regret that for want of sufficient funds these seven wall show-cases could not be provided with shelves of any kind and we are therefore obliged to wait for better circumstances.

All the table show-cases in the Art Room have now been converted into double decker show-cases. This has largely solved the problem of space in the Art Section.

VIII. Bulandibagh Antiquities.—Sixty-one antiquities from Bulandibagh (Pataliputra), which were excavated before 1927 have been included in the Museum's Archaeological Catalogue (in the Press). These antiquities have now been numbered and entered in our Stock Register. A full descriptive list of the above antiquities will appear from Appendix C (vide Archaeological Register, nos. 8498—8558).

IX. Antiquities Found During the Sewerage Excavations.—The diggings in Patna by the Health Department of the Government of Bihar for the drainage scheme during the years 1935-36 yielded 1,028 antiquities which furnish a very important contribution to Archaeology. These antiquities have already been published in our Annual Report for the year ending 31st March, 1938 [vide Appendix E(a), pages 51-95]. Some of these important antiquities have been included in the Museum's Archaeological Catalogue (in the Press). The Curator has now entered these 1,028 antiquities in the Stock Register (vide Archaeological Register, nos. 8559—9586).

X. Kurkihar Bronzes.—In 1930 the Patna Museum received and subsequently acquired as Treasure Trove 233 Bronzes, etc., from the village of Kurkihar in Gaya district. The Bronzes and other antiquities were found at a depth of 15' below a mound. These are all attributable to the Medieval Period of Ancient India, Pala and Sena Period. Quite a large number of them are inscribed and dated as of the reigns of various Rulers. They are

mostly Buddhist images, but there are a few Brahmanical examples. By analysis, the metal composition of the Bronze images have been determined to consist of copper, lead, tin and iron. Very few of these images have been plated with gold. Many of the above figures still retain their eyes of silver, as most of the eyes were originally in silver or precious stones. A detailed list of the above 233 antiquities will appear from Appendix C of the Report. The Curator has now entered these 233 antiquities in the Stock Register (vide Archaeological Register, nos. 9587—9819).

XI. Mohenjo-Daro Antiquities.—The Government of India in the Archaeological Department had kindly given us on loan 514 antiquities unearthed at Mohenjo-Daro in Sind. A detailed list of the above antiquities has already been published in our Annual Report for the year ending 31st March, 1938 (vide Appendix D, pages 30—50). These antiquities have now been recorded in the stock Register (vide Archaeological Register, nos. 9820—10333).

XII. Miscellaneous Antiquities.—Nine antiquities from unknown sites have been included in the Museum's Archaeological Catalogue (in the Press). A descriptive list of these antiquities is given in Appendix C (vide Archaeological Register, nos. 10334—10342).

XIII. Model of a Lama.—The Museum has added to its collection of Casts a model of a Lama in Plaster of Paris. An attempt has been made to exhibit the Tibetan dress worn by Lamas. The model has been prepared by the Museum's Modeller and was dressed at the request of the Curator by a distinguished Tibetan visitor. The exhibit is an object of interest and has become a centre of attraction for our visitors from Tibet.

XIV. Visitors.—Among other distinguished visitors of the Museum were Messrs. John Sergeant, Education Commissioner for India, G. Yazdani, Director of Archaeology of His Exalted Highness the Nizam's Dominions, Hyderabad (Deccan), J. W. Houlton, C.I.E., I.C.S., A. R. B. Parsons of the late Indian Political Service, Government of India, Mrs. Lloyd Jones, Messrs. R. E. Davis, I.C.S., J. E. Pearsman, I. XVI. Important Acquisitions.—The following important exhibits have been acquired by gift, or on loan or purchased during the year under report :—

(a) Lohanipur (Patna) yielded a male head, sculptured in hard greyish buff sandstone. It is a part of a statue, of which another fragment—probably an arm or leg—has also been found. The head has a strongly chiselled chin and its polished surface is practically untouched. The above were discovered accidentally while the foundation were being dug for building a house. They were thrown into a well by the builders who were perhaps afraid of the site being acquired by Government for excavations. The pieces would have probably lain there but for the timely arrival of the Curator.

(b) The Museum had an unique opportunity to acquire under the Treasure Trove Act a beautiful and completely preserved stone figure of a female attendant, which was probably an inset of a part of a door jamb of some temple or building, recently recovered from Rajmahal through the good offices of Dr. M. Nazim, Superintendent, Archaeological Survey, Central Circle, Patna. The figure wears ear-rings, necklace, bangles, armlets, waist chains, etc. A bird is shown looking up to the figure on its right. It measures 2'-8½" in height.

(c) By purchase, a stone Jaina nude standing figure of Parsvanatha having a seven-hooded serpent. It measures 11½" in height.

(d) By purchase, a black stone image of Vishnu with two attendants—female to right and male to left. Two flying Gandharwas are shown on top of the slab. The sculpture belongs to the Pala and Sena period and measures 21¾" in height and 11" in width.

(e) By gift from Mr. S. V. Sohoni, I.C.S., a terra-cotta plaque, which belongs to the period of the reign of Vighraha Pala Deva Raja Dhiraj. The characters of the inscriptions on the plaque belong to the Nagri script of the 11th Century A.D.

- (f) On loan from the Director-General of Archaeology in India, painted potsherds, which were unearthed at Harappa in the district of Montgomery.
- (g) By purchase, a very pleasing water colour painting of the old Kangra School representing the scene of Lord Krishna playing upon a flute and Shri Radhaji attending on him. Lord Krishna's brother Baldeo is shown as diverting the course of the River Jumna with the help of a plough (size $11'' \times 8\frac{1}{4}''$).
- (h) By purchase, water colour painting of the Kangra School representing the scene of the marriage of Shiva. Devas and Rishies are shown as attending the ceremony (size $15'' \times 11\frac{3}{4}''$).
- (i) By purchase, water colour painting of the Kangra School representing a female wearing "Red Sari" and walking in the storm (size $9\frac{1}{2}'' \times 6\frac{1}{2}''$).
- (j) By gift from Mr. Brahamdeo Narain, Advocate, Patna, two documents in Persian concerning the sale of land in Bihar bearing the seals of the Moghul Emperors, Farrukhsiyar and Mohammad Shah. The seals bear the years 1125 A.H. and 1133 A.H., representing the 1st and 3rd regional years of the respective Kings (size $22'' \times 20''$ and $31\frac{1}{2}'' \times 20''$).
- (k) By purchase, a set of ancient armour with gold damascene work with very fine workmanship consisting of a steel helmet with chain-mail, back and front plates, 2 side plates, 2 upper arm shields, 2 lower arm shields, and also a dagger-like sword with a large brass gauntlet, a shield with silver circles and crescent and a sword with gold work on the hilt.
- (l) By purchase, manuscript copy of Qoran with Translation in Persian which was dedicated to the Moghul Emperor, Aurangzeb at Burhanpur in the 11th Century A.H.
- (m) By purchase, a Turkish sword and Caucasian dagger of damascene workmanship. The blade and its scabbard of the sword are inscribed.
- (n) Light green glass Hukka (the base only) belonging to the 18th Century A.D.—East India Company period or earlier.

XVII. Numismatics.—A separate detailed report of the Secretary, Coin Cabinet and the Treasure Trove Officer, on the Coin Cabinet, is appended to the Report.

XVIII. Finance.—A detailed statement of receipt and expenditure of the Museum for the year 1940-41 will be seen from Appendix B.

The Managing Committee had been faced with great difficulty in finding room for the steadily growing collection of exhibits, as will also appear from the remarks made by Mr. G. Yazdani, Director of Archaeology, Hyderabad (Deccan) that "it is getting overcrowded by exhibits". In order to meet this difficulty we have removed the Fossil Tree from the Archaeological Gallery as has been stated above. The scheme of improvements could only be effected by saving under certain less urgent units of the Museum Budget and re-appropriate the savings to this scheme of improvements. We are grateful to Government for according their sanction of re-appropriation amounting to Rs. 1,389 without which it would have been impossible to give effect to these improvements.

XIX. Library.—A number of books have been added during the year under report. The total number of books and pamphlets is now 1,386 as against 1,343 of 1939-40.

XX. Garden.—It has been well kept.

XXI. Picture Postcards.—The Museum is getting more popular day by day among the educated classes as will appear from the fact that our picture postcards are being sold in large numbers.

XXII. Tour.—On account of the incidents connected with Burglary of Coins, the Curator, Mr. S. A. Shere, was deputed to proceed to Benares, Bhabhua and Lucknow to enquire into the above case. The Curator was, therefore, on tour from the 1st October, 1940 to 6th October, 1940 and from the 7th October, 1940 to the 15th October, 1940.

(2) The Curator was deputed to attend the meetings of the Numismatic Society of India, All India History Congress and Indian Historical Records Commission at Lahore and Baroda. He was, therefore, on tour from the 14th December, 1940 to the 23rd December, 1940.

XXIII. Gifts.—The Committee record their grateful appreciation of the interest taken in the Museum by those donors, both private and official, a list of whom is given in Appendix J.

XXIV. Buildings.—The Committee are thankful to the Public Works Department for the assistance given in regard to the repairs of the building and removal of the Fossil Tree.

The above letter from Government was considered at a meeting of the Managing Committee and the following Resolutions were passed at that meeting :—

“(a) Resolved that in view of the past and present record of the said Photographer, the Committee consider that his retention in the service of the Museum will be detrimental to discipline and efficiency in the institution. The technical findings and comments of the Joint Public Service Commission and Government's acceptance of the same, however, leave no real option to the Committee but to reinstate him. They do so after recording their apprehension of the possible consequences of such action.

“(b) Resolved further that no member of the Managing Committee was willing to undertake a fresh departmental enquiry into the charges against the dismissed Photographer, Babu Promode Kumar Rai Chowdhury and that is why the Managing Committee have no real option but to reinstate the dismissed photographer.

V. Working of the Museum.—The report for the year under review will show substantial improvements and additions made in different sections of the Museum. As many as 697 antiquities have been added to our exhibits during the year under review (1941-42).

The Archæological Gallery is now overcrowded with exhibits. New stone pedestals have been provided for Museum sculptures and labels have been prominently printed on them, indicating their find spots and periods.

The Geological Gallery has been converted into a Terra-cotta Gallery where thirteen large wall show-cases fitted with plate glass shelves and four double-decker table show-cases contain only Terra-cotta figurines from different important sites such as, Bulandibagh, Kumrahar, Patna, Buxar, Belwa, Vaisali, Mathura, Kausambi and last but not least Mohenjo-daro. The wall show-cases in the Gallery have been painted in black and the Terra-cotta figurines standing on their dainty Plaster of Paris stands in those cases can now be seen to better advantage and studied under far better conditions, while the black background throws up the lines of the exhibits. The exhibition in the same gallery of Terra-cotta figurines from different sites was considered necessary in order to help scholars to make a comparative study of the objects.

The Bronze Room, which always attracts particular attention, and it now includes bronze figure of a seated and gilded Buddha in a perfect state of preservation and of great refinement in execution, with inscriptions in Burmese characters. It is reported to have come into the possession of the father of Miss A. Cloete of Ranchi just after the annexation of Burma when the booty from the Mandalay Palace which was not reserved by Government for despatch to Queen Victoria was sold by auction in Calcutta. The President of the Managing Committee when at Ranchi happened to hear of this bronze image and arranged to acquire it from its owner, who with commendable public spirit disposed of it to the Museum rather than to other likely purchasers. The Superintendent of the Archæological Survey, Burma, Mandalay, very kindly supplied a reading and translation of the two Burmese inscriptions at the instance of Dr. N. P. Chakravarty, M. A., Ph. D., Deputy Director-General of Archæology in India, to whom estampages of the inscriptions were sent by the Curator. The Committee are grateful to these officers for the assistance rendered in getting the inscriptions read. The translation of the inscriptions is as follows:—

(1) "The image of the sage who bears a lotus."

(2) "The image of the sage who bears a lotus brought and presented by the king of China (Nanchao?) on the 1st waning of the month of Vaisakha in the year of the Burmese era 1151" (i.e., 1789 A. D.)

As the Museum exhibits have rapidly increased, the question of space has been solved to a certain extent by converting all the table show cases into double-deckers, but even so the ground space available is somewhat crowded. His Excellency the Governor of Bihar, Sir Maurice Garnier Hallett, K.C.S.I., K.C.I.E., I.C.S. (now Governor of the United Provinces), when visiting the Museum in 1938, had remarked that "It is clear to me from my recent visit that expansion is becoming an urgent problem and I will see that this

question is fully considered." The Museum in fact has much expanded since 1938, but unfortunately, owing to the outbreak of war in 1939 no structural additions have been possible.

As a result of economies in various directions the Committee were able to spend a considerable sum on the new Terra-cotta Gallery and also on the preparation of stone pedestals. This expenditure was met from savings effected in the contingent funds of the Museum.

VI. Visitors.—Among other distinguished visitors to the Museum were Mr. S. L. Marwood, C.I.E., I.C.S., Commissioner, Patna Division; Mrs. A. Marwood; Mr. C. K. Raman, I.C.S., Deputy Secretary to Government of Bihar, Education Department; Mrs. Raman; Mr. T. P. Singh, I.C.S., Under-Secretary to Government of Bihar, Education Department; Mrs. Singh; Mr. S. V. Sohoni, I.C.S., Subdivisional Officer, Buxar; Mr. S. N. Mazumdar, Director of Industries, Patna; Rao Bahadur K. N. Dikshit, Director-General of Archaeology in India; The Hon'ble Mr. Justice H. R. Meredith, Puisne Judge, Patna High Court; Mr. W. G. Archer, I.C.S., Collector, Patna; Mrs. A. Archer; Mr. Krishna Das, Curator, Bharat Kala Bhawan, Benares; Dr. P. M. Joshi, Librarian, University of Bombay; Mr. S. L. Hora of the Zoological Survey of India, Calcutta; Dr. S. N. Bal of the Industrial Section of the Indian Museum, Calcutta; Mr. H. R. Batheja, I.E.S., Principal, G. B. B. College, Muzaffarpur; Dr. Radha Kumud Mukherjee, Professor, Lucknow University; Mr. Bathwin (2) Sub-Judge, Burma and Rai Sahib Srinarayan Arora, Chairman, Patna City Municipality.

Visitors seemed favourably impressed by the method of display and arrangement of exhibits, despite the unavoidable congestion. The new Terra-cotta Gallery in particular attracted attention and is popular with all interested in a comparative study of these exhibits.

It may be interesting to reproduce the remarks made about the Museum by some of the visitors.

(1) The Hon'ble Mr. Justice H. R. Meredith, I.C.S., Puisne Judge, Patna High Court :—

" Mr. A. C. Ghosh, the officiating Curator very kindly showed me round and was most courteous and obliging."

(2) Mrs. A. Marwood, Patna :—

" A most interesting and well arranged collection."

(3) Khan Bahadur Muhammad Sana Ullah, Archaeological Chemist in India :—

" All the exhibits are kept in a decent condition."

(4) Mr. Krishna Das, Curator, Bharat Kala Bhawan, Benares :—

" Very glad to see the Museum after a number of years. Mr. Shere has to be congratulated on the marked improvement in the arrangement and display of the exhibits. An illustrated Catalogue, I find, is in the press. This would be a very welcome publication."

(5) Professor Radha Kumud Mukherjee, Lucknow University :—

" The Kurkihar antiquities form a unique feature of the Museum for which it deserves special recognition. These extend very much the range of so-called Nalanda or Pala Art."

(6) Mr. H. R. Batheja, I. E. S., Principal, G. B. B. College, Muzaffarpur :—

" Spent a very enjoyable afternoon in seeing the latest developments in the Museum by Mr. Shere."

(7) Dr. P. M. Joshi, Librarian, Bombay University :—

" I congratulate Mr. Shere for the spirit he has put in his work. I found some things here which we do not get in the Prince of Wales Museum in Bombay. Altogether a most impressive display."

The turnstile in the Entrance Hall during the year under review recorded 1,49,201 visitors. The number of visitors during the last year (1940-41) was 1,25,539. The figures speak for themselves as to the increasing popularity of the Museum amongst the general public.

VIII. Important Acquisitions.—The following important exhibits have been acquired by gift, or on loan, or purchased during the year under review :—

- (a) By gift from Mrs. Lila Singh of Bhagalpur, a Terra-cotta tumbler of the Inca (Pre-Christ) period. It is 3 $\frac{3}{4}$ " in height (Arch. no. 10455).
- (b) On loan from the Director-General of Archaeology in India, a black Terra-cotta Eka-mukha-linga with Gouri-patta standing on a high round pedestal. It is reported that the antiquity was found by a contractor, while cleaning a well within the acquired area at Kumrahar (Pataliputra). It is 4 $\frac{3}{4}$ " in height (Arch. no. 10521).
- (c) By purchase, a standing stone female figure. She holds a dagger in her right hand. Her left hand is raised and it holds a standard. She is trampling over two human figures, one under each foot. The figure is a Buddhist representation of Mahakali. It is 18 $\frac{1}{2}$ " in height with tenon (Arch. no. 10540).
- (d) The Museum had an unique opportunity to acquire by purchase a bronze seated and gilded and inscribed figure of Buddha in Bhumisparśa Mudra, already referred to under paragraph V "Working of the Museum" (Arch. no. 10541).
- (e) By purchase, a bronze figure of seated Buddha. Its left hand rests on the lap holding a beggar's bowl, while the right hand rests upon the right knee and the tips of the fingers point to the ground with palm downwards (Bhumisparśa or Bhūsparsa Mudra). It is 2'—4" in height with halo (Arch. no. 10542). The beggar's bowl is an unusual feature.
- (f) By gift, a perfect specimen of a stone inscription belonging to the later Guptas. The particular thanks of the Managing Committee are due to Mr. S. V. Sohoni, I.C.S., Subdivisional Officer of Buxar who very kindly arranged to secure this valuable and interesting tablet for the Museum from Chandhury Brij Mohan Roy, Rais and Zamindar of Mangraon (Shahabad district), to whom also we desire to express our appreciation of his public spirit.

The inscription is dated in the 17th regnal year of Maharajadhiraja Vishnu-gupta. This Vishnu-gupta was a king of Magadh about 700 A. D.

The inscription describes a time-honoured pious practice in India—the gift of a pala of oil purchased from kins-folk and dedicated to the lamp of a deity, here Subhadresvaradeva, by a pious villager, duly attested, with the devout hope that none will it gainsay. Its size is $14\frac{1}{2}'' \times 9\frac{1}{2}'' \times 2\frac{1}{2}''$ (Arch. no. 10543).

- (g) By purchase, four-fine paintings on paper of the Pahari School depicting scenes from the Ramayana. Their detailed description is given in Appendix 'E'—Art nos. 793—796.
- (h) By purchase, an illustrated Persian Manuscript on Sufism with five Indo-Persian Paintings. Size $9\frac{1}{2}'' \times 5\frac{1}{2}''$ (Art no. 804).
- (i) By purchase, three documents of the later Moghul period in Persian, concerning transactions of land in Bihar. Their detailed description is given in Appendix 'E' (Art nos. 815—817).
- (j) On loan from Parbhu Singh, resident of Bhairpur, district Shahabad, of a 'Choga' presented to him in April 1900 by Lady Curzon, Vicerine of India in recognition of his bravery in the siege of Ladysmith (Misc. no. 321).

IX. Patna Museum Gold Coins alleged to have been sold at Benares.—The gold coins seized by the Police at Bhabhua, Benares and Lucknow as reported in the Managing Committee Report for the year 1940-41 were found after Police investigation to be Treasure Trove Coins from the United Provinces and not those burgled from the Patna Museum in April 1939.

X. Numismatics.—A separate detailed report of the Secretary, Coin Cabinet and Treasure Trove Officer, Bihar, will be seen in Appendix 'A'.

XI. Museum's Participation in Exhibitions.—(a) A Historical Exhibition was held at Mysore in connection with the Eighteenth Session of the Indian Historical Records Commission in December 1941. A dozen selected paintings of the Patna School—19th Century A. D. were lent by the Patna Museum for exhibition at Mysore.

(b) Half a dozen Tibetan banners (Paintings on silk) and ten folios of Prajna-paramita in gold lettering, 500—600 years old, were lent at the request of the Maha Bodhi Society, Calcutta, for the Buddhist Art Exhibition which was to be held on the occasion of the Golden Jubilee celebration of the Society in December 1941. But on account of the war situation, the Golden Jubilee celebrations of the Society were indefinitely postponed and the Museum's exhibits were returned.

XII. Finance.—A detailed statement of Receipt and Expenditure of the Museum for the year 1941-42 will be seen in Appendix 'B'. A fee of annas four is charged from each visitor on Fridays and the Museum realised Rs. 90 as visitors' fee during the year under report as against Rs. 85-8-0 realised in 1940-41.

XIII. Library.—A number of books have been added during the year under review. The total number of books and pamphlets is now 1,445 as against 1,386 of 1940-41.

XIV. Garden.—It has been well kept.

XV. Picture Postcards, Plaster Casts, etc.—Cultured visitors are evincing more interest in the Museum as may appear from the fact that picture postcards of the Museum's exhibits sold at prewar prices have been sold for Rs. 16-1-0 during the year 1941-42 as against Rs. 11-7-3 realised in 1940-41.

Figures in Plaster of Paris made in the Studio at the Museum have been sold for Rs. 7-12-0 as against Rs. 4-8-0 realised in 1940-41.

Photo prints of negatives maintained in the studio of the Museum have been sold for Rs. 44 during the year under review.

The money realised from the sales of picture postcards, etc. are credited to the Treasury as income to Government.

XVI. Tour.—The Curator, Mr. S. A. Shere was out on tour from the 7th December to the 8th December 1941 in connection with the acquisition of a sculpture at village Apsanr, district Gaya.

The Curator was also deputed to attend the meetings of the Indian Numismatic Society and Indian History Congress held at Hyderabad and Indian Historical Records Commission at Mysore. He was therefore on tour from the 18th December 1941 to the 29th December 1941 and the 17th January 1942 to the 29th January 1942.

XVII. Donations.—Mr. S. L. Marwood, C.I.E., I.C.S., Commissioner, Patna Division and Mr. W. G. Archer, I.C.S., District Magistrate and Collector, Patna, were good enough to make generous grants of Rs. 250 and Rs. 118 respectively towards the purchase of antiquities for the Patna Museum. The total sum of Rs. 368 so kindly donated by them was spent on our endeavour to rebuild the Coin Cabinet and on the purchase of paintings. The Managing Committee express their gratitude for the donations and their appreciation of the keen and helpful interest taken by the Commissioner and the Collector in the Museum.

XVIII. Gifts.—The Committee records their grateful appreciation of the interest taken in the Museum by those donors, both private and official, the list of whom is given in appendix 'K'.

XIX. Buildings.—The Committee are thankful to the Public Works Department for the assistance given in regard to repairs of the building.
